Executive Summary

On January 21, 2016, Digitech Inc. was called in to assist the National Gallery, Washington D.C. (NGDC) case involving the conspiracy associated with the theft of valuable stamps and defacing of museums are at the NGDC.

i. Basic facts of the case

- Alex is seeking to embarrass America and damage public relations by defacing Foreign Art, belonging to Majavia and currently on display in the National Gallery during the month of July.

- Alex contacts Carry to recruit her to assist with his cause. Also, Alex is sending Krasnovian militants to Washington DC to carry out the deed.
- Carry is to develop the plan to get them into the museum with the tools needed to damage the artwork.
- Carry contacts Tracy who works as a supervisor at the National Gallery and is an acquaintance of Carry.
- Tracy has been talking with her brother about stealing stamps from the National Gallery. Information about the plot to take the stamps will be on her computer, personal phone and home computer.

ii. Suspects

- Alex - he is seeking to deface Foreign Art in efforts to embarrass America and damage public relations; has close family ties to the family of Carry-whom he recruits to help him. Both are from Krasnovia.
 - Carry - is from Krasnovia and is a supporter of Krasnovia; she is an acquaintance to Tracy; has been recruited by Alex; is developing the plans to get into the museum and stage a fake “flash mob”; is technically savvy in that she knows about steganography tools and encryption. She hides many of her correspondence in steg files and encrypted files; has information about the plot stored on her various devices.
 - Tracey - she works as a supervisor at the National Gallery and is an acquaintance to Carry.
 - Joe - currently going through a divorce with Tracy; financial well-off; recently installed a key logger on the MacBook Air to keep track of Terry’s (his daughter) online behavior; motivated by the divorce- will seek to utilize the key logger to spy on both Tracy and Terry; used to have an account on the family MacBook Air-- home folder may have been preserved.
 - Pat - is the brother to Tracy and uncle to Terry; is a corrupt DC police officer/detective of the Enforcers Bureau; not an outright criminal but walks the line closely.
- As part of the investigation, Tracy’s iPhone was taken into custody.
 - Digitech, Inc. was tasked with investigating evidence relevant to the aforementioned conspiracy.

As described fully in the report, Digitech, Inc. made the following findings.

The following evidence was confiscated:

- Carry’s Tablet
- Tracy’s iPhone
- Tracy’s External Hard Drive
- Tracy’s MacBook Air
- Carry’s Phone

Equipment and Tools

- Kali Linux Terminal(within Microsoft Azure VM)

- Autopsy
- SQLite Browser

Evidence relating to theft of valuable stamps

This sub-section provides details regarding the evidence found as it relates to the theft of valuable stamps.

- ARTIFACT 05 - Pat unknowingly reveals that “Coral Blue” is Tracy (and her password)
- ARTIFACT 03 - Pat (using the pseudonym “Perry”), Tracy (using the pseudonym “Coral”), and “King” discuss details regarding the heist, including materials needed
- ARTIFACT 02 - The .PDFs in this attachment reveal the targets of the heist

Evidence relating to defacement of museum art

- ARTIFACT 04 - Carry & Tracy discuss details on the flash mob, including sneaking Carry's tablet into the museum past the security guards. (Later to be confiscated for further museum art defacement evidence.)

Plot Timeline

JUNE 19, 2012 - Pat & Tracy establish aliases.

JULY 02, 2012 - Tracy asks Joe for help paying Tracy's school tuition. Joe refuses unless Tracy is allowed to live with him.

JULY 09, 2012 - Tracy e-mails herself the insurance claims (which give their monetary value) of stamps.
JULY 10, 2012 6AM - Carry & Tracy discuss sneaking the tablet into the museum.
JULY 10, 2012 8AM - Pat propositions King to assist them in their heist.
JULY 11 - Carry plans to come in around 9.
JULY 11 - Tracy circles around the museum (suggests that Tracy may be waiting for Carry).

Conclusion

Evidence found on Tracy's iPhone indicated the following:

In June, according to Artifact #01: Pat & Tracy begin to carry out the act of the stamp heist. They first send encrypted messages to each other via e-mail. In Artifact #02, Tracy attempts to disguise communications by e-mailing herself insurance claims of the stamps on July 09th, indicating her interest in the monetary value of the stamps. Artifact #03 validates the premise of the Prosecutor's accusation--Tracy & Pat (as well as their accomplice, King) planned to steal items from the museum.

In observing Artifact #05 (as well as other Artifacts, such as #04 and #06), it is clear that Tracy is having financial issues. Joe provides an ultimatum to Tracy --that either Terry lives with him or he will not pay for Terry's schooling. On July 3rd, Terry makes it evident, in Artifact #06, that she would prefer staying with her father if that meant being able to attend her school, Pruf Rock.

In addition to the heist, Tracy unknowingly became an accomplice to another serious crime. In Artifact #4, Carry explains to Tracy that she is planning a flash mob in the museum. Tracy agrees to help--after being given financial incentive--- by sneaking Carry's tablet into the museum, with knowledgeable disregard for museum security protocols. The tablet is now under investigation in the case regarding defacement of artworks.
